MAY, 20 - 24, 2024
CANCUN, MEXICO

Welcome to the 32nd World Buiatrics Congress! We are thrilled to host veterinarians, researchers, and professionals from around the globe to share knowledge, innovations, and experiences in the field of buiatrics. This Congress promises to be an enriching platform for learning and networking. We hope you enjoy your stay in the beautiful city of Cancún and make the most of this exceptional opportunity to contribute to the future of buiatrics.

Please be advised that we will not be accepting cash payments. Only credit or debit cards will be accepted.

Please take a moment to review the following information:

Registration schedules:

Monday, May 20th	12:00 - 18:00 hrs
Tuesday, May 21st	7:00 - 17:00 hrs
Wednesday, May 22nd	7:00 - 17:00 hrs
Thursday May 23rd	7:00 - 17:00 hrs
Friday May 24th	8:00 - 12:00 hrs

IMPORTANT!

This congress will feature AI-powered simultaneous translation

To make the most of it, it is very important to bring your headphones and the downloaded app to each session.

REGISTRATION CATEGORY

Delegates A	850 USD
Delegates B	600 USD
Delegates C	400 USD
Students	400 USD

ON SITE From 18th until 24th May, 2024

One Day Pass	\$200 USD
Accompanying Person	\$100 USD
Gala Dinner	\$155 USD

MONDAY MAY 20

ROOM	TIME	CONFERENCE TITLE
GRAN CANCUN ROOM	12:00-19:00	REGISTRATION AND DOCUMENTATION DELIVERY BREAK / LUNCH
	19:00	FLOKLORIC BALLET OF THE STATE OF QUINTANA ROO, MEXICO
	20:00	OPENING CEREMONY
	21:00	WELCOME RECEPTION

TUESDAY MAY 21

ROOM	TOPIC	TIME	CONFERENCE TITLE	
Room Coordinator: José Ignacio Sánchez Gómez Moderator: Luis Corona Gochi				
GRAN CANCUN 1	NUTRITION	8:45 -9:30	KEYNOTE LECTURE Whole colostrum for calf welfare and long term productivity Ryan Davis 🇺🇸	
		SCIENTIFIC CONFERENCE		
		9:30-9:50	Smectite supplementation to preweaned dairy calves: Effects on passive transfer immunity, morbidity, performance and mortality Ainhoa Valdecabres Inchaustegui	
		9:50-10:10	Evaluation of bovine colostrum replacer supplementation to improve weaning transition in Holstein dairy calves Kristen Edwards	
		10:10-10:30	Description of different feeding strategies of transitional milk on five Danish dairy cattle farms Kenneth Krogh	
		10:30-11:00	Break - Exhibit Hall (ground floor) Moderator: Luis Corona Gochi	
		11:00-11:45	KEYNOTE LECTURE Importance of colostrum for small ruminants Dr. Juliana Mergh Leão 🇧🇷	
		SCIENTIFIC CONFERENCE		
		11:45-12:05	Nutritional emulsifiers as a potential digestibility enhancer in the ruminant metabolism Meissa Topete García Ulloa	
		12:05-12:25	Megasphaera elsdenii NCIMB 41125 capsule administration effects on growth performance in Holstein calves: preliminary results Marcello Guadagnini	
		12:25-12:45	Effect of feeding 5 days of transition milk compared with milk replacer on health status, growth rates of dairy calves. Katharine S Denholm	
		12:45-13:05	The concentration of copper in the liver over time with different methods and doses of injectable copper supplementation Gregory Chambers	
		13:05-13:25	Ruminal fermentation and ruminal ammonia concentration in beef cattle supplemented with urea and urea-protected additive Lizbeth Robles Jiménez	
		13:25 15:30	Lunch - Exhibit Hall (ground floor)

CANCÚN 1

NUTRITION

15:30-17:30	SIMPOSIUM	
	CALF NUTRITION AND REARING	
	Dr. Ryan Davies	
	The effect of the supplementation of passive immunity and the addition of enriched pasteurised transition milk for the first 10 days of life in batch calving pasture-based milk production system	
	Dr. Travis White	
	Using Colostrum to Improve Calf intestinal health during times of challenge	
Dr. Mike Nagorske		
Physiological Adaptations of the 1st weeks of the Post-natal period and Capitalizing on Nutrition through Phase Feeding		
Dr. Jose Maria Gutierrez		
Enrichment and pasteurisation of colostrum in intensive systems in the northern region of Mexico.		
Dr. Taliah Danzinger		
Improving calf health with data		
SPONSORED BY SCCL		

Room Coordinator - **Antonio Martínez Loeza**
Moderator: **Elke Von Son de Fernex**

CANCÚN 2

PARASITE DISEASES

8:45 - 9:30	KEYNOTE LECTURE	
	Economic Impact of parasites in beef cattle Tom Strydom	
SCIENTIFIC CONFERENCE		
9:30-9:50	Mezquite pod as a potential nutraceutical for the control of >>Haemonchus contortus<< Cintli Martínez-Ortiz-de-Motellano	
9:50-10:10	Comparison of single versus combination dewormers on fecal egg counts and weight gain in young grazing cattle Gabriele Maier	
10:10-10:30	Growth performance of beef heifers treated with an injectable fixed-dose combination (0.2 mg/kg doramectin + 6.0 mg/kg levamisole hydrochloride) or single-active (0.2 mg/kg ivermectin) endectocide Jase Ball	
10:30-11:00	Break - Exhibit Hall (ground floor)

GRAN CANCÚN 2	PARASITE DISEASES	Moderator: Elke Von Son de Fernex	
		11:00-11:45	KEYNOTE LECTURE Cryptosporidiosis in cattle and recent advances in prevention PhD Luis Miguel Ortega-Mora 🇪🇸
		SCIENTIFIC CONFERENCE	
		11:45-12:05	Injectable trace minerals associated with vaccination against Haemonchus contortus program reduce worm egg counts and increase average daily gain in lambs in Australia, a pilot study Paula González Rivas
		12:05-12:25	Targeted selective treatment at housing with injectable eprinomectin in French dairy cattle using a validated decision support system (TRI) Damien Achard
		12:25-12:45	The effect of Potassium Sorbate on Crypto GP40 antibodies in colostrum Geert Vertenten
		12:45-13:05	Pharmacodynamic Interactions in Artemisia cina Ethyl Acetate Extract: Anthelmintic Effects on Haemonchus contortus Eggs and Infective Larvae L3 Luis David Arango De la Pava
		13:05-13:25	Efficacy of an oral solution of paromomycin for the treatment of suckling beef calves with cryptosporidiosis in a multicentric field study Damien Achard
		13:25-15:30	Lunch - Exhibit Hall (ground floor)
		15:30-17:30	SIMPOSIUM "A breakthrough in the control of ectoparasites in cattle and their effect on welfare and productivity" Dr. Tom Strydom Dr. Daniel Rodrigues Dr. Fernando Borges Dr. Tiago Galina
		SPONSORED BY MSD	
		GRAN CANCÚN 3	ANIMAL BEHAVIOUR AND WELFARE
8:45-9:30	KEYNOTE LECTURE Stress and its impact on disease in calves Dr. Geoffrey Smith 🇺🇸		
SCIENTIFIC CONFERENCE			
9:30-9:50	Identifying animal-based measures to assess dairy cattle welfare in Indonesia: A Delphi study Istianah Maryam Jamilah		
9:50-10:10	Evaluation of differences in pooled sample metabolic profile results of Flemish farms with high versus low yearly cow mortality rates Angelique Rijpert		
10:10-10:30	A delphi study to build pain scoring scale in cattle Raphael Guatteo		
10:30-11:00	Break - Exhibit Hall (ground floor)

GRAN CANCÚN 3	ANIMAL BEHAVIOUR AND WELFARE	Moderator: Juan Hernández Medrano	
		11:00-11:45	KEYNOTE LECTURE More energy for pregnant goats, best mother-young behavior Dr. Horacio Hernández Hernández 🇲🇷
		SCIENTIFIC CONFERENCE	
		11:45-12:05	Describing behaviors of beef bulls during the pre-breeding period using remote monitoring technology and machine learning algorithms Vinicius Camargo
		12:05-12:25	Use of an automated behavior monitoring system for heat stress to check and optimize cooling strategies Carolina Tejero
		12:25-12:45	A glimpse into tail tip lesions in dairy cows – have we missed something? Mirjam Lechner
		12:45-13:05	Assessment Welfare protocol to a buffalo farm Melina Yasuoka Marie
		13:05-13:25	Comparative analysis of hair cortisol concentrations from different body regions and coat color in dairy goats Irma Eugenia Candanosa Aranda
		13:25-15:30	Lunch - Exhibit Hall (ground floor)
		GRAN CANCÚN 4	INFECTIOUS DISEASES
8:45 - 9:30	KEYNOTE LECTURE Expectations and directions for the prudent use of antibiotics in bovine mastitis control PhD Paolo Moroni 🇮🇹		
SCIENTIFIC CONFERENCE			
9:30-9:50	Bovine brucellosis: Advantages of using vaccine Brucella abortus RB51 Luis Samartino		
9:50-10:10	Effectiveness and safety of brucellosis control using the RB51 vaccine in adult beef cows João Drumond		
10:10-10:30	Prevalence and spatial distribution of infectious diseases of dairy cattle in Ontario, Canada Diego Nobrega		
10:30-11:00	Break - Exhibit Hall (ground floor)		
Moderator: Luis León			
GRAN CANCÚN 4	INFECTIOUS DISEASES	11:00-11:45	KEYNOTE LECTURE Epidemiological characteristics of the pathogens that cause Bovine Mastitis in large dairy farms in China Bo Han 🇨🇳
		SCIENTIFIC CONFERENCE	
		11:45-12:05	Bluetongue serotype 3 outbreak in cattle in the Netherlands in 2023: Clinical signs, pathological findings, transmission and implications K.M.J.A. van den Brink
		12:05-12:25	Pain relief therapy for managing viral vesicular diseases and their consequences Peter Windsor A
		12:25-12:45	Rational design of an effective ruminant sub-unit Q fever vaccine Tom McNeilly N
12:45-13:05	Investigating Digital Dermatitis on dairy farms: exploring bacterial dynamics and mapping reservoirs Angelica Petersen Dias

			SPONSORED BY ZOETIS
GRAN CANCÚN 5	POPULATION PRODUCTION MEDICINE	Room Coordinator: Ulises Jesús Bautista Pérez Moderator: Rodrigo González López	
		8:45 - 9:30	KEYNOTE LECTURE Bovine respiratory disease: update on diagnosis, surveillance and treatment Dr. Richard Pereira
		SCIENTIFIC CONFERENCE	
		9:30-9:50	Usefulness of lung ultrasound (tus) in the early detection of the bovine respiratory complex - experiences and results in Uruguay and Mexico Omar Bellenda
		9:50-10:10	Characteristics of fatal Mannheimia haemolytica fibrinous pleuropneumonia outbreaks on dairy farms in the Netherlands Jasper het Lam
		10:10-10:30	Comparative Evaluation of Three Tests for Failure of Passive Transfer and Association with BRD and NCD Pathogen-Specific Antibodies in Neonatal Calves Egon Thesing
		10:30-11:00	Break - Exhibit Hall (ground floor)
		Moderator: Rodrigo González López	
		11:00-11:45	KEYNOTE LECTURE Insights into genetic disorders in cattle PhD Joana Jacinto & PhD Arcangelo Gentile
		SCIENTIFIC CONFERENCE	
		11:45-12:05	Comparison of accuracy of sonography, rectal palpation, and PAG test for pregnancy diagnosis in cows Maria Sady
		12:05-12:25	Effect of parenteral micronutrient supplementation at birth on immunity, growth, and health in pre-weaning dairy heifers Angel Abuelo
		12:25-12:45	Effect of a T-cell immunomodulator on the percentage of immune cells in the uterus of dairy cows during the puerperium Juan Manuel Guillen-Muñoz
		12:45-13:05	Factors Influencing Early Growth and Health in Dairy Female Calves: A Comprehensive Analysis from Dairy Farms in Brazil Joao Costa
		13:05-13:25	Evaluation of factors associated with immunoglobulin, fat, protein and lactose concentrations in colostrum from dairy cows Katharina Lichtmannsperger
13:25-15:30	Lunch - Exhibit Hall (ground floor)		
15:30-17:30	SIMPOSIUM MODERATOR: Lucía Eliana Rangel Porta "Reproductive biotechnologies in cattle" Dra. Nina Casagrande Accelerating Sustainable Genetics Faster with Hormone Free IVF Dr. Juan Moreno Genetic advances to create sustainability ORGANIZED BY AMMVEB

	SCIENTIFIC CONFERENCE		
		11:45-12:05	Effect of a targeted reproductive management program based on automated estrus alerts during the voluntary waiting period on reproductive performance of lactating dairy cows Ana Laura Laplacette
		12:05-12:25	Association between estrus detected by an automated behavior monitoring system during the VWP with physiological outcomes and reproductive performance of lactating dairy cows Ana Laura Laplacette
		12:25-12:45	Predicting the Reproductive Performance of Transition Cows on Automatic Milking Systems Fergus Hannon
		12:45-13:05	Evaluation of a needle-free injection system for administration of cloprostenol for luteolysis in lactating dairy cows Alyssa Leslie
		13:05-13:25	Immunoglobulin G levels of dairy-sourced calves at the point of entering the beef rearing unit, measured using a novel lateral flow device, and their association with performance during rearing Benjamin Barber
		13:25 15:30	Lunch - Exhibit Hall (ground floor)
	SYMPOSIUM "Reproducing value"		
		15:30-17:30	1. Dr. Pietro Baruselli Impact of IATF on productive and economic sustainability in bovines. 2. Dr. Alejo Menchaca Keys to the success of IATF in bovine programs 3. Dr. Daniel Martines Bello Economic analysis of the use of embryo technologies in cattle 4. Dr. Victor Di-Bella Application of embryo technologies to improve productivity in bovine herds in Mexico

			Room Coordinator: Antonio Martínez Loeza Moderator: José Luis Dávalos Flores
SOCIO-ECONOMIC ASPECTS OF RUMINANT PRODUCTION		8:45 - 9:30	KEYNOTE LECTURE Practical understanding of BVDV to better control disease and circulation Dr Nicolás Arias 🇲🇵
	SCIENTIFIC CONFERENCE		
		9:30-9:50	Economic and performing benefits of implementing an automated behavior monitoring system in a Brazilian Dairy farm Anna Luiza Belli
		9:50-10:10	Economic benefits of abrupt dry-off with cabergoline injection in dairy cows. A field case in Vietnam Philippe Gisbert
		10:10-10:30	Understanding dairy smallholders' intention to participate in the control and eradication of bovine brucellosis Carlos Galdino Martínez García
	10:30-11:00	Break - Exhibit Hall (ground floor)	
			Moderator: Rafael Olea Pérez
SUSTAINABILITY AND ENVIRONMENTAL IMPACT		11:00-11:45	KEYNOTE LECTURE Livestock health, breeding and genetics: the connection with sustainability MSc Ruairadh Petre 🇬🇧
	SCIENTIFIC CONFERENCE		
		11:45-12:05	Reduced methane eructation in smallholder large ruminants with a dietary tannins and citral extract Peter Windsor A
		12:05-12:25	Scenario analysis of the consequences of heat stress on enteric methane emission in dairy herds Long Chen
		12:25-12:45	Unveiling the Evolution of Dairy Cattle Farming in Chile over two decades Paula Toro Mujica
		12:45-13:05	The Use of Machine Learning to Predict Cow and Herd Level Outcomes and Optimise Dairy Herd Management Andrew Bradley
		13:05-13:25	Influence of reduced age at slaughter on the carbon footprint of beef herd under the life cycle assessment metric Lais Abreu
		13:25-15:30	Lunch - Exhibit Hall (ground floor)
	SYMPOSIUM MODERATOR: Rafael Olea Pérez "SUSTAINABILITY" Dr. Francisco Galindo Maldonado		
		15:30-17:30	Sustainable livestock systems: towards meeting the sustainable development objectives (ODS). Dr. Juan Ku Vera Mitigation of greenhouse gas emissions in livestock production Dr. Ruairadh Petre Healthy Animals, Healthy People, Healthy Planet
